

QUESTIONS & ANSWERS III

ITB: 22-026A CHOCTAW BEACH FIRE STATION

1. Can you provide an update on the Archaeological Testing as far as its completion date?

RESPONSE: Excavations are nearly complete and should wrap up around April 27th. The analysis of collected material will then proceed and is estimated to take two months.

2. Per Addendum #2, 2 weeks will be allowed for the bidding process. This is a narrow window during normal time periods and particularly tight considering the anticipated bid date could be close to Memorial Day Holiday. Would you consider allowing 3 weeks for the bidding period in order to obtain the most competitive pricing for this project?

RESPONSE: Yes

3. Have there been any published revisions to civil plans, architectural plans or technical specifications?

RESPONSE: Yes. Please see updated plans and specs provided in the advertised sharefile link.
