Importance: High

Walton County Public Works Department has been continuing in good faith towards completing the work required by the original DO and thus it has not expired.

Thank you,
VR,

Mr. Schoen,

As you are aware the County has been continuing toward completing this project for quite a while now. We recently received authorization from the BCC to proceed with construction of project utilizing the plans as they were permitted in the DO. Can the Planning Department please provide us with the necessary documentation stating that this DO is not expired?

Thank you,

David Bush

Please note: Florida has a very broad public records law. You should note that most written communications to or from county officials regarding county business are public records that are available to the public and media upon request. Your e-mail communications may therefore be subject to public disclosure. If you do not want your e-mail address or communication released in response to a public-records request, do not send electronic mail to Walton County. Instead, contact this office by phone or by other writing.

Good Morning,

We have been continuing in good faith towards completing the work required by the DO and thus it has not expired. Please coordinate with Bob on the extension of same.

Thanks,

Mac

Mac, I wanted to check with you to verify that our D.O. has not expired. We plan to have this project out to construction early next year. We have been doing some work on the site with in-house crews that could establish the D.O. if necessary in the event it has expired. If you have any questions, please let me know.

Thanks
